# Give your home a lift

*Quality PVC-U roofline solutions - fascias, soffits, guttering and more*

Roofline solution in White, finished with square-line guttering in Black

# Introducing Roofline

## *Long-life, low-maintenance PVC-U roofline systems*

Fascias, soffits and associated roofline products are essential components for any property. Exposed to the elements, they play a crucial role in protecting the roof space and rafters of your home. They may go unnoticed most of the time, but old, rotten or discoloured timber fascias and soffits can spoil the look of your property and cause expensive damage to your roof rafters.

Roofline components need to be durable, weather-resistant, attractive and – due to their difficult-to-access location – low maintenance. PVC-U roofline products meet and exceed all of these requirements. you need exactly when you need them – and at great-value prices.

## Complete PVC-U roofline systems

We offer everything you need for a complete, high-performance roofline system, manufactured to the highest quality standards. From fascias, soffits and guttering to dry verge, over-fascia ventilation and all the essential trims and accessories – we can install a roofline system that will really enhance your home.

## Colour-match and quality guaranteed

All our roofline systems are supplied by the same manufacturer – Eurocell – which means all colours are exactly matched across the product range. That means our whites are the same white across all products and our woodgrain finishes are all perfectly matched. Our roofline products also carry guarantees of up to 20 years against discolouration, warping and cracking.

## Local supply for rapid response

Because all of our roofline products are sourced from Eurocell, we can quickly access all the materials we need for your home from the nationwide network of over 125 Eurocell branches. That means we can respond quickly to urgent jobs, getting the products you need exactly when you need them - and at great-value prices.

# Why choose PVC-U roofline?

*The hassle-free way to preserve your roof and enhance your home*

## Aesthetic appeal

PVC-U fascias, soffits and roof trims will brighten up your property, giving it a fresh new lease of life. All roofline products are available in a range of colours and woodgrain finishes to suit individual property styles and personal tastes. You can also choose plain flat boards for a simple, contemporary look, or sculpted 'ogee' style options for a more decorative finish.

Property with standard fascia boards in Golden Oak finish

Decorative Ogee style fascia boards in White finish

## Low maintenance for life

PVC-U fascias, soffits and other roof trims require very little maintenance an occasional wipe clean with a damp cloth is enough to keep your fascias and soffits looking as good as new, for life.

PVC-U products will not rot, crack or warp and will remain a long-term, maintenance-free asset to your property.

## No painting

PVC-U roofline products require no sanding, painting or treatment – ever. Installation is clean and hassle-free, with no dust or mess. Your fascias and soffits will retain their appearance and performance without the need for any preservative treatments.

## Long-life performance

White PVC-U roofline products come with a 20-year guarantee against discolouration, warping and cracking. Coloured, laminated boards carry a ten-year colour-fastness guarantee.

## Soffit boards
(White hollow soffit board shown)
For details on the full range of soffit board, see page 8

*The principal roofline components are fascias and soffits. Where existing timber fascia is in good condition, PVC-U capping board can be fitted over the timber as an alternative to replacing it completely with PVC-U*

# Fascia boards

Standard fascia boards and utility boards in White, featuring decorative finial

## Ideal for both new homes and replacement projects

Available in a standard flat profile or a distinctive sculpted ‘ogee’ style, our fascia it is easy to fit and makes a smart improvement to your home.

At 18mm thick, the boards are sturdy enough to be attached directly to rafters, helping to reduce the cost of fascia replacement. They are compatible with all types of soffit, giving you a choice of styles for your roofline.

## Colours available include:

Golden Oak
Rosewood
Irish Oak
White Ash
Black Ash
Grey

Note: Eurosoffit board is only available in White, Golden Oak and Rosewood

# Soffit boards

We offer a complete range of soffit boards which perfectly complement our fascia boards. These high-quality components give your roofline an attractive, clean-edged finish and require minimal maintenance. There are three soffit styles available, which are fully compatible with our fascia systems for an exact colour-match.

## Eurosoffit board

With built-in ventilation slots to ensure your loft is well ventilated at all times, preventing damp and protecting the rafters from rot.

## 9mm utility board

Provides a simple, clean look which can be enhanced with separate vents to maintain airflow through your loft space.

## Hollow soffit board

A lightweight, cost-effective soffit solution, which can also be fitted with effective ventilators.

# Capping boards

Where your existing timber fascias are in good condition, capping board is a cost-effective way to freshen up your roofline and protect it against the elements. Our 9mm-thick PVC-U capping board is available in a choice of either standard or 'ogee' styles and in a range of colours to suit any home.

The board is simply attached to your existing timber fascias or to a new timber backboard for a first-class, long-lasting installation. Our capping board is compatible with a whole range of soffit styles.

Grey

Note: Ogee style capping board is only available in White, Golden Oak and Rosewood

# Protect and improve your property

A roofline sample showing the 3 in 1 accessory used to enhance your roofline solution

Shiplap cladding in a horizontal formation, in White finish

## Enhanced solutions

Your roofline solution can be further enhanced by various add-ons which help improve ventilation and prevent birds or vermin getting into your roof space. For ventilation, disc ventilators for your soffits offer additional airflow in roof spaces. Alternatively, over-fascia ventilators can be used as an unobtrusive and effective way to ventilate your roof space. Both lightweight and durable, they can help to prevent invasion of the roof space by birds. Another way to prevent roof invasion would be to use an eaves comb filler, which fits between the fascia and the roof tiles.

In addition to these individually available items, there is a 3 in 1 solution (as shown above) which combines: A **Over-fascia ventilation** which sits underneath the felt tray, B **Eaves comb filler** and C **In-built felt tray** which prevents the roof felt from sagging and stops pools of water from forming.

## External cladding

PVC-U cladding can enhance and refresh the appearance of your home. It provides an attractive, low-maintenance and weather-resistant solution for replacing rotten timber cladding, concealing problem areas of brickwork or adding an interesting new feature to your property.

Available in Shiplap or Open-V styles, PVC-U cladding is designed for easy installation with a simple clip-together fitting system. The range of colours and realistic woodgrain finishes available means you can create a truly unique appearance, whether you want a rustic timber-effect or a crisp contemporary white finish.

### Colours available include:

White | Golden Oak | Rosewood | Black Ash

▲ Detached property with White standard fascia boards and hollow soffit boards, finished with half-round guttering in Brown

Half-round guttering in Brown. Also showing standard fascia boards and hollow soffit boards in White

# Guttering

## *Effective, attractive, durable rainwater systems*

Guttering not only ensures efficient drainage of your roof, but can also improve the appearance of your home. Our complete range of PVC-U guttering and associated components is suitable for all types of domestic and commercial property. Manufactured from high-impact, high-gloss PVC-U for a durable, weather-proof finish, it is quick to install and comes with a ten-year guarantee for durability and colour-fastness*.

All styles of guttering come with a full range of matching accessories and fitting systems and offer an exact colour match with our roofline products. Cream-coloured guttering is available exclusively from Eurocell in the Universal Plus style, while ogee styling gives you the option of a more decorative, sculpted finish.

▲ Universal Plus guttering shown in Brown

▲ Square-line guttering shown in White

*Applies to White product only

# Half-round guttering

## 114mm x 51mm

The classic, widely used half-round guttering style is ideal for residential buildings of all types. It is available in 4m lengths.

### Colours available include:

White Brown Black Grey

# Square-line guttering

## 114mm x 59mm

Our stylish, contemporary square-line guttering is suitable for all residential buildings. The guttering is available in 4m lengths. Top-hung fascia brackets are available to give a smoother look to your roofline.

### Colours available include:

White Brown Black Clay Brown

# Universal Plus

# Universal XL

Universal guttering is a robust, high-capacity guttering system designed for use on larger residential and commercial buildings. It is available in 4m lengths and in two styles to suit different types of building:

## 128mm x 88mm

Designed for use on large residential buildings, smaller commercial premises and conservatory roofs. The thick PVC-U extrusion makes it durable and sturdy.

## 114mm x 71.5mm

A rainwater system for properties with a large roof area, such as commercial buildings and rows of terraced housing. The deep elliptical shape is designed to handle high rainwater volumes, and means that fewer downpipes are required.

## Colours available include:

White Brown Black Clay Brown

## Colours available include:

White Brown Black

Brown dry verge is complemented perfectly with standard fascia boards in Rosewood

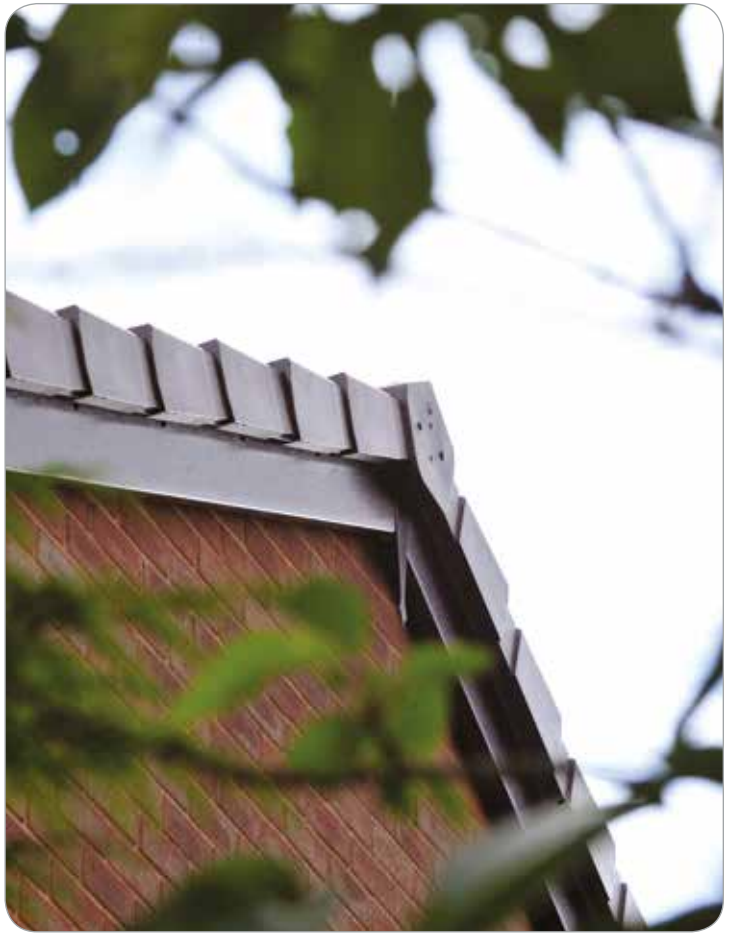

# Dry verge

*Smarten up and secure your roof edges*

Designed to neaten up the edges of tiled roofs and block any gaps that could allow infestation of the roof space, dry verge is the perfect finishing touch to any roof. It is weatherproof, requires no maintenance and is the ideal way to tidy up your roof and cover any unsightly gaps.

Dry verge is a mortar-free solution that can easily be fitted to existing roofs, with no need for wet trades. The clip-together system provides a secure fitting that avoids the problem of wind uplift. Our PVC-U dry verge is compatible with most concrete or clay interlocking tiles and comes in five colours to complement your home:
